Software Developer

I am a computer programmer. I studied Mechanical Technology in high school. I was interested in machines but until I discovered the coding spirit in me. I develop projects to constantly improve myself.

I have always been interested in technology. That's why I follow and keep myself updated. I love coding. It's like playing a game for me.

Specialties: Java, PHP, HTML, CSS, JavaScript, C#, C++, MySQL

Technologies: Bootstrap, Font Awesome, Animate.css, Ionic, Sublime Text, VS Code, Android Studio

Languages: English: A1

Programming resources used for self-learning: Github, Stack Overflow, W3schools, GeeksforGeeks, YouTube, Udemy, Android for Developers
